

CACHEMIRE

Water-based decorative textile like finish
INTERIOR

DESCRIPTION

Water-based, decorative effect coating with a soft, textile like surface finish.

FIELD OF USE

A decorative effect finish designed for interior walls, prepared beforehand with a render. It can also be applied over various supports such as cement, plaster, plasterboard, wood or metal, after suitable preparation and priming.

Cachemire is easily applied by roller or brush, without sagging or touch up problems, over two coats of Colofondo. The special textile like effects is obtained by following our application instructions. The product is easily washed after application by using a wet sponge and soapy water.

TECHNICAL CHARACTERISTICS

- Aspect : Soft, satin like velvet effect, like cachemire.
- Colors : See our catalogue.
- Spreading-rate : 3.5 m²/L in two coats (can vary depending upon the surface and the application method used).
- Densité : 1.08 +/- 0.05 Kg/l at 25°C.
- Viscosité : 75 +/- 5 KU's au Viscosimètre de Krebs.

SURFACE PREPARATION

For easy application and optimum performance the surface needs to be clean, sound and dry before rendering :

- * Sand vigorously with a Chiendent brush.
- * Sand with sandpaper.
- * Remove the dust.
- * Wash with a water-jet if necessary.

APPLICATION PROPERTIES

Before applying prepare the surface, and then apply two coats of the Colofondo color with a roller.

After 12 hours of drying, apply Cachemire according to the desired special decorative effect (see the photos on the label or in the catalogue).

Do not apply in temperatures below 5°C etc, or in conditions of over 70% relative humidity.

DÉTAILS DE LA MISE EN OEUVRE

Dilution : Water (10 to 20% for the 1st coat, 20 to 30% for the 2nd coat).

DRYING TIME

- *Between coats: 24 hours
- *Surface dry: 20 minutes
- *Dry time: 30 minutes
